ABDUL KUDUS MUSAH

Email**: kudusbanna@gmail.com** | website:https://kudusbannah.me/ | GitHub: **KudusBannah**

Education

University of Ghana - Accra, Ghana	Expected: August 2024

B.S. Computer Engineering, GPA class: 1st
Honors and Awards: JHS best graduating student, Achimota SHS NSQM Team

Skills & Interests

Programming Languages:	Python ,JavaScript, C/C++, Dart, Java
Other technologies:	HTML, CSS, jquey, Django, Flask, Git, Postgres, bootstrap, flutter,

Recent Projects

DevsHub | HTML, CSS, Js, Bootstrap, Django   **github.com/KudusBannah/devsHub**

- A simple chat room app built with Django, where developers can meet, share ideas, and discuss various programming topics in created and customized rooms.
- Also has an Activity feed to view recent activities.
- User registration and authentication.
- Ability to customize chat rooms

Movie-app | HTML, CSS, Js   **github.com/KudusBannah/movies-app**

- This is a simple movies app that allows users to review movies.
- It makes use of "the Movies DB API" to fetch movie data,
- Filtering, movie search, displaying brief overviews, and rating movies with different colors based on their scores.
- The app also includes basic pagination for easier navigation through movie listings.

Weather App | Flutter   **github.com/KudusBannah/WeatherApp**

- Allows users to lookup weather condition and current time at different places (country/city)
- Dynamic background that changes based on the time
- Displays the flag of the country the city is based in
- Focus on design and simplicity

Voluntary Exercises

@thedonhub youtube | Voluntary | Remote   January, 2023 – Present

- Recorded programming videos for the engineering school students who aren't reading computer engineering

Extracurricular & Leadership

- **ArmEngage** | Member | 2022 - Present
- **Google ML training Programme** | Member   2023 - Present
- **Achimota Ghana Muslim Students Association** | Executive   2019 - 2020
- **Engineering School Robotics Club** | Member   2023 - Present
